Section 1 – Introduction

This directory provides a list of Healthy Mississippi (HMO)'s network providers.

A PCP (Primary Care Physician) is a healthcare provider who helps you manage your health. They're the first person you talk to when you have a health issue or medical problem that's not an emergency. Your PCP may refer you to a specialist for additional care. Our plan does not require referrals from your PCP, so you are not required to see your PCP before seeing a specialist. As an example, a specialist could be a podiatrist, a gynecologist, or a dermatologist.

Your PCP can help coordinate care between you and your specialists. Depending on the type of services, your PCP may be required to get prior authorization.

You will have to choose one of our network providers listed in this directory to be your Primary Care Provider (PCP). Generally, you must get your health care services from your PCP. A PCP may be a Family Medicine Provider, Nurse Practitioner, Physician Assistant, Internist, and Internal Medicine.

The network providers listed in this directory have agreed to provide you with your health care services. You may go to any of our network providers listed in this directory; however, some services may require a referral. Your PCP can help you if a service requires a referral. Other providers are available in our network. Our Network is tiered. Tier 1 has the lowest costs, Tier 2 has mid-range costs, and Tier 3 has the highest costs.

If you see an out-of-network provider, and get a bill, please contact us to help process it and determine if you have any payment responsibility. You can call us, email us, or you can send the bill with detailed information to us at:

Healthy Mississippi, Inc.
10 Canebrake Boulevard, Suite 110
Flowood, MS 39232
healthymsplan@healthy-ms.com

Our plan allows you to go anywhere in an emergency, or to a qualified urgent care provider outside of our service area. If you are experiencing an emergency, please go to the closest emergency or urgent facility.

You must use network providers except in emergency or urgent care situations. If you obtain routine care from out-of-network providers, neither Medicare nor Healthy Mississippi (HMO) will be responsible for the costs.

Medicare Advantage plans are required to maintain written standards for the amount of time members should have to wait to have an appointment scheduled for primary care and behavioral health services. Healthy Mississippi, Inc. meets CMS' minimum standards as follows:

- Urgently needed services or emergency—immediately;
- Services that are not emergency or urgently needed, but the enrollee requires medical attention—within 7 business days; and
- Routine and preventive care—within 30 business days.
